Gryffon LLC
A Veteran Owned Business

May 17th and the 18th
Hollywood Casino - Lawrenceburg, Indiana

FIRE ALARM DESIGN - WORKSHOP

LEARN FROM AN EXPERT!

Professionalism is critical in the fire alarm business and requires a solid foundation of knowledge. After successfully completing this 2-day program, you will have learned the following basic skills for providing code compliant designs - with no guesswork!

- **Fire Alarm System Basics – Devices, Interfaced Systems, and Operation**
- **Code Requirements**
- **System Design Requirements and Techniques**

The program is comprised of a mixture of lectures and hands-on exercises supported by custom-developed checklists and reference materials.

Certificates of training attendance will be issued after completion

About the instructor:

Dale A. Simmons is the founder and principal consultant of Gryffon LLC. Dale has over 35 yrs of experience and is a recognized and highly respected expert in the fields of fire safety and security.

He has a unique perspective that includes practical experience, technical expertise, and the ability to develop creative solutions. His knowledge base, creativity, and work ethic make him unique at solving problems and often enable him to develop solutions when others are at an impasse.

He loves to teach, has a talent for making things understandable, and his classes are highly rated!

Things To Know 👍

All classes will include:

- Paper handouts for in-class exercises
- Electronic handouts (downloadable or on USB drive) with additional handouts, references, and tools
- A continental breakfast, buffet lunch (please indicate any special dietary requirements when registering) and refreshments.

Attendees should bring:

- Notebook and writing utensils.
- Laptop or tablet capable of accessing the internet.
- Copy of NFPA 72 – 2016 (if available)
- A compass (metal device with pencil used for drawing circles, protractor, and 12" ruler or 12" engineer's scale (preferred).

Misc:

- Recording of any type is not permitted.
- No refunds can be issued. If extenuating circumstances (extreme weather, pandemic, instructor illness, etc.) make it so the class cannot be held on the date advertised – it will be rescheduled at a date acceptable to 90% or more of the attendees.
